PROMINENT MAN  
DEAD AT CAPITAL

Charles A. Smith, Secretary of Corporation Commission, Dies at Phoenix — Formerly of Jerome

PHOENIX, May 15.—Charles A. Smith, secretary of the Arizona corporation commission, died at his residence on Eighteenth avenue at 9:30 of heart disease, from which he has been a sufferer for many years. At his bedside at the time of his death were his wife, and daughter, Elizabeth, aged 20.

Smith had been sick for the past two or three weeks, during the greater part of the time being in bed. Hard work and worry in connection with his duties, is said to have brought the malady to a head. Dr. Swetnam was the attending physician.

Charles A. Smith, or just plain, unvarnished "Charlie" as all of his many friends called him, was one of the best liked men in the state capital. He had been connected with the corporation commission in the capacity of secretary since last July, during which time he established himself in the commission as one of the most valuable of state officers. He has appeared in practically every important rate hearing held before the commission and as at all times been considered as one of the best men on rates in the state.

Before coming to Phoenix as secretary of the commission, Smith was connected with the United Verde and Pacific railway, in the capacity of traffic manager.

"Charlie" Smith knew every man, woman and child in Jerome. He, at all times, exhibited a personal interest in them and in their welfare. Nothing which they asked of him was too hard to make an endeavor to secure. His sunny, steadfast character will always be remembered by those who knew him.

Smith would have been 48 years old September 5. He was born in Macon City, Mo., moving west shortly afterwards. He has been identified with the interests of Arizona for the past eighteen years. Surviving him are a widow and daughter. He was a member of the Moose and the Woodmen. The funeral arrangements have not been made, but will be announced as soon as possible.

## ELECTRIC FANS

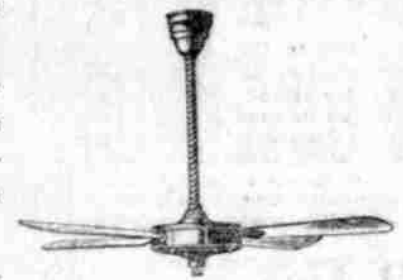

Increase the popularity of your place of business by making it comfortable during the dry, hot season, which is now upon us

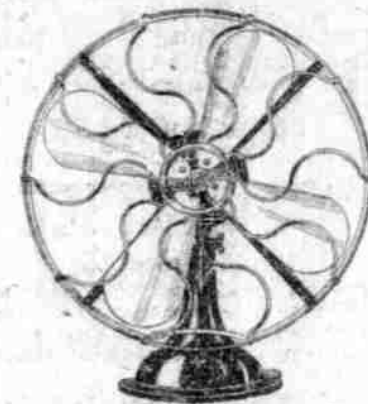

Use Westinghouse Electric Fans to Keep a constant breeze going and to keep the flies away. It's a small investment that brings big returns.

Flies have no use for a Westinghouse Electric Fan—they are as helpless in the air currents which it produces as a bi-plane in a hurricane. No matter what tempting morsels your place affords, turn the button that starts the fan and all the flies will vanish.

We are carrying in stock and have on display the following:

CEILING TYPE					
32-In. 4 Blade	-	\$24.50	56-In. 4 Blade	-	\$30.00
Desk And Bracket Type					
16-In. Stationary	-	\$17.75	12-In. Stationary	-	\$15.50
16-In. Oscillating	-	\$22.00	12-In. Oscillating	-	\$18.75
8-In. Stationary	-	-	-	-	\$9.50

The fan designed expressly for home use is the eight-inch type. It is light enough to carry from room to room. It is made to run without noise, so that it can be used in the bed room or sick chamber. It is so economical in current consumption that it will operate all afternoon at a cost of about three cents.

Any of the desk and bracket type fans can be used alike on table or wall

## Kuppenheimer Clothing

A Safe Investment For  
Your Clothes Money

You like security for your money; you may as well have it for clothes money as for any other. And, security is just as important for \$18 as for a larger sum; even more important — maybe; the man who can't afford to pay over \$18 wants to be quite sure of getting full value.

We offer extreme values in "KUPPENHEIMER" Suits at \$18 and all prices between to \$30. Our guarantee of satisfaction applies to all alike; your money back if you think you don't get value.

The suits we sell for \$25 are extraordinary examples of our value-giving power. They excel in style — the smartest fashions of the season. They excel in tailoring — the best work of the best clothes-making organization in the world. We can fit any figure correctly. We believe there's FIVE DOLLARS more real value in these suits than \$25 ever bought before.

## COLLEGIAN CLOTHES FOR YOUNG MEN

Smart, Snappy Models At \$15.00, \$18.00 Up To \$25.00

The young men, the lively dressers, are especially provided for here. Makers of Collegian Clothes have created a lot of models that will catch the young man's fancy — smart styles that meet their ideas and ideals. We show them in Norfolk and two and three-button sack models. Made of blue serge and a wide range of handsome mixtures. Here you get the biggest money's worth in suits at \$15 the price ever bought — and, equally as good values at \$17.50, \$20 and \$25.

Beck Mine Shows Prosperity Now

Superintendent Mott Makes Recent Rich Discoveries at Stein's

LORDSBURG, N. M., May 15.—The Beck mine, owned by the National company at Stein's, is now in a prosperous condition. The recent ore discoveries made by Superintendent Mott are looking better and better, and the ore taken out in the development work more than pays the cost of such work. He has encountered a vein of sulphide ore which does not appear on the surface. The vein is about three feet wide, with a pay streak of from three to six inches. Two samples of the pay streak recently assayed ran 3.88 ounces gold, 690.5 ounces silver and 5.6 per cent lead, and 2.48 ounces gold, 772.7 ounces silver and 4.5 per cent lead, while a grab sample of the rest of the vein went 30 of an ounce in gold, 254.2 ounces silver and 8.8 per cent lead. This work is in solid ground, below the numerous breaks and folds that are found in that section, and the indications are that the ore is in place, and will go down to water level, getting richer all the time. Much very rich ore was taken out of the Beck near the surface, but all the veins either pinched or run out

with depth, owing to the folds and breaks. All miners familiar with the formation were confident that if the ore was found again below the broken ground it would be richer than the surface ore, and would be permanent for a long distance. Much money has been spent looking for this ore, and it looks as though Mott had found it. Having found it the next thing is to go down on it, and get depth. The situation is such that there is not sufficient ventilation to sink a mine where he wants to, and he intends to take the well drilling outfit there and sink a couple of large drill holes to the drift he is running, which will give him plenty of air, and then sink a mine on the ore. Much of the ore can be economically handled by shipping to the smelter and the rest can best be handled on the ground by a mill. The company has a mill, but it is not the right character to handle this ore. The power plant can be used, but the rest of the mill will have to be scrapped, and new reduction machinery put in. It is not wise to do this until more ore is developed, so some idea of the amount of machinery it will be wise to put in. The National will be a winner yet.

## FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these ugly spots.

Simply get an ounce of ointment—double strength—from Central Pharmacy and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

Secretary Redfield of department of commerce, says morals and practices of business men are growing better. He says: "A new conscience now governs the United States, officially, commercially and socially. It has taught us we are in business to render a service to the public as well as to

## Stirring Times

We are having in the building line. We carry a full line of lime, plaster, cement and everything else needed for building. Everything purchased here will be found of the best quality and the best for intended purposes. We will save you trouble and unnecessary expense by sending to us for an estimate.
